

# THE ABLATIVE ABSOLUTE

## FORMATION:

1. The ABLATIVE ABSOLUTE is composed of two major elements that make up a phrase or independent clause.
  - a. a NOUN (or PRON.) + PARTICIPLE in the ABLATIVE case
  - b. a NOUN (or PRON.) + a NOUN (or PRONOUN) in the ABLATIVE case
2. The Ablative Absolute is not grammatically related to any other word in the main clause. (“Absolute” meaning “free from.”)
3. Note that the two words that make up the ABLATIVE ABSOLUTE must be in the ABLATIVE case and have the same number (*sing.* or *pl.*).

## TRANSLATION:

- The ABLATIVE ABSOLUTE can be used to show the situation of an action that has occurred
  1. prior (PERFECT PARTICIPLE) to the main clause
  2. at the same time (PRESENT PARTICIPLE) as the main clause
- The translation of the Ablative Absolute depends entirely upon context.

### SITUATION #1 • Noun + Noun

e.g., CAESARE DUCE      Literally, “with Caesar [as] the general”

### SITUATION #2 • Noun + Pres. Act. Participle

e.g., LUCIO LABORANTE      Literally, “with Lucius working”  
Loosely: Present Participle – supply “while” or “as”  
While Lucius was working . . .

### SITUATION #3 • Noun + Perf. Pass. Participle

e.g., ME CAPTO      Literally, “with me (having been) caught”  
Loosely: Perfect Participle – supply “after,” “since,” or “because”  
Since I was captured . . .

NB: Situation #3 is probably the most common; the Romans liked making ABLATIVE ABSOLUTE from the last principal parts of verbs.

## Examples:

1. aedificiō ardente, liberī matrēsque ē fenestrās clamābant.

Literal:

Loose:

2. librīs lectīs, magister multās litterās scripsit.

Literal:

Loose:
